# The Smallest, Lightest, Most Advanced Monitor/Defibrillator Available

The Propaq<sup>®</sup> MD adds defibrillation and pacing to the Propaq monitor you know and trust – and weighs even less.

The integration of field-proven Propaq technologies with new advanced capabilities like 12-lead monitoring will quickly make the Propaq MD a new standard of care.

Exceptionally rugged and reliable to withstand hostile environments, the Propaq MD is designed to meet military and airworthiness standards.

Designed with the user in mind to be intuitive and easy to use.

Utilizes the latest battery technology that provides twice the operating time of your current Propaq.
